acpi msft0101 driver â†’ <http://aladinapam.loadqip.ru/?dl&keyword=acpi+msft0101+driver&source=gmaps> acpi msft0101 driver If you have a need to update the drivers on your computer, then you can do it automatically, as shown. You will not be able to update the driver without enabling the adapter. This is necessary for more efficient use of resources when connected to a slower modem or access point. And how do I update the drivers now. I don't even see it in device manager.
